

Project Demo Planning

Date	03 July 2026
Team ID	
Project Name	AI Powered Debt Relief & Financial Recovery
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan helps the team effectively present the **AI Powered Debt Relief & Financial Recovery Platform** by demonstrating its core features, AI-powered financial analysis, debt management capabilities, and borrower support functionalities. The demo showcases how the platform assists users in managing loans, improving financial health, and generating personalized debt settlement strategies.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Introduce the project, objectives, and importance of AI in debt management.	2	M.M.Renuka Lakshmi
2	Problem Statement	Explain the financial challenges faced by borrowers and the need for an AI-powered debt relief solution.	2	M.M.Renuka Lakshmi
3	Solution Overview	Explain the system architecture, React.js frontend, FastAPI backend, SQLite database, SQLAlchemy ORM, and Google Gemini API integration.	3	M.M.Renuka Lakshmi
4	Live Feature Demonstration	Demonstrate User Login, Add Loan, Loan Management, Financial Health Analysis, AI Letter Generation, Negotiation Strategy, and Dashboard.	8	M.M.Renuka Lakshmi
5	Deployment Demonstration	Show AI-powered debt analysis, financial recommendations, negotiation strategy generation, and AI-generated debt settlement letter using Google Gemini API.	5	M.M.Renuka Lakshmi
6	Conclusion & Q&A	Summarize the project, discuss future enhancements, and answer evaluator questions.	5	M.M.Renuka Lakshmi

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the difficulties borrowers face in managing loans, multiple EMIs, and financial planning.
2	Solution Overview	Describe the complete system architecture, technologies used, and AI workflow.
3	User Login & Dashboard	Demonstrate secure login and the financial dashboard showing loan statistics and financial health.
4	Add Loan	Enter a sample loan with loan name, outstanding amount, EMI, monthly income, and overdue months.
5	Loan Management	Display the stored loan and explain Edit, Delete, Analyze, AI Letter, and Negotiation Strategy options.
6	Financial Health Analysis	Show AI-generated financial health analysis and recommendations.
7	AI Letter & Negotiation Strategy	Demonstrate automatic generation of debt settlement letters and negotiation strategies using Google Gemini API.
8	Questions & Future Enhancements	Explain possible future features such as multi-bank integration, credit score analysis, payment reminders, and advanced financial forecasting.
