Data Flow Diagram

The Data Flow Diagram (DFD) illustrates how information flows through the **AI Powered Debt Relief & Financial Recovery Platform**. It shows the interaction between borrowers, AI services, backend processes, and the database while processing financial data, generating settlement recommendations, and creating negotiation letters.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity	Borrower/User – The user who registers, logs in, enters loan details, income, expenses, uploads documents, and receives AI-based debt relief recommendations.
Rectangle with numbered header	Process	Debt Relief Web Application, Gemini AI API, Financial Recovery Engine, Budget Planner, Debt Analysis, and AI Negotiation Recommendation – These processes analyze user data and generate personalized financial recovery solutions.
Rectangle (solid fill, no number)	Data Store	User Database – Stores user profile, loan details, income, expenses, repayment history, and financial records. AI Interaction Logs – Stores AI requests, responses, and activity logs.
Labeled arrow	Data Flow	Represents the movement of data such as Loan Details, Income, Expenses, Documents, AI Requests, AI Responses, Budget Plans, Settlement Recommendations, EMI Advice, Financial Recovery Reports, and Alerts between the user, processes, and databases.

Example

The diagram below illustrates how the symbols above come together to form a complete data flow diagram
